ELEVATED ELEGANCE

Blending exquisite design with breathtaking views, this luxury pool becomes the centerpiece of a lavish lakeside residence.

BY MELISSA C. GILLESPIE

Perched on the second level of a private residence, this pool epitomizes luxury with a Lautner knife edge slot perimeter overflow design and a 47-foot vanishing edge. The pool also features a six-seat hot spa, a shallow lounging area with in-water lounge chairs and umbrella mounts, all clad in exquisite glass tile. Inspired by the expansive views of the adjacent lake, the design caters to both the aesthetic and functional desires of the homeowner.

This pool and spa ensemble is crafted to enhance the surrounding vistas while providing a versatile living space ideal for entertainment or tranquil relaxation. Always ready for use, the pool invites not only for a swim but also to marvel at its architectural beauty, making it a perfect blend of form and function for friends and family to enjoy. aquaticconsultantsinc.com, mosaicist.com, ryanhughesdesign.com
